

CONSTELLATION

(Series 2000)

The window that opens to heaven

VIMAT
WINDOWS & DOORS

Actually, the Constellation window opens to heaven – just like an awning – to allow free air circulation while protecting the opening against water intrusion. Simple but efficient!

- Rigid PVC multi-chamber thermo-fusion welded frame 114,3 MM (4 1/2") with incorporated "J" return for jamb extension for an easy and flawless installation. Frame elements melted into one another form an extremely resilient unit specifically well-adapted to the harsh weather prevailing in our regions;
- Welded PVC sashes with sealed double-glazed units 22.2 MM thick (7/8") ensuring total comfort;
- Non-conductive white PVC spacer;
- Effortless opening system with double-action scissor mechanism;
- Easy-to-operate secure locking device;
- Screen included.
